Curator Hotel & Resort Collection Selects StayNTouch as a Preferred PMS Partner

BETHESDA, MARYLAND [June 28th, 2021] [StayNTouch](#), a global leader in guest-centric and cloud hotel property management systems (PMS), was selected by [Curator Hotel & Resort Collection](#) ("Curator") as a preferred PMS partner for their growing portfolio of independent boutique hotels.

Curator is a distinct collection of hand-picked independent lifestyle hotels and resorts across the United States and the globe. The partnership between StayNTouch and Curator enables Curator member hotels to leverage StayNTouch's guest-centric cloud PMS and contactless solutions to facilitate smoother operations, streamline staff training and productivity, and enhance the guest welcome and departure experience.

"Given the current climate surrounding resource and staffing shortages, our independent owners and operators need a PMS that is intuitive, robust, and easy-to-use," said Austin Segal, Curator's Vice President. "StayNTouch is an ideal option to help many of our members facilitate a lean and highly-efficient operation. Each one of our member hotels offers their guests an entirely unique experience, so they need technology that is flexible in delivering on their individual visions. StayNTouch's simplified open-API architecture and their commitment to building a strong integration ecosystem makes it easy for our member hotels to grow their technology stack more strategically."

Michael Heflin, Chief Revenue Officer for StayNTouch, said, "We are excited to partner with Curator's independent member hotels and offer our full suite of solutions to help enhance operations and deliver on the guest experience each owner has distinctly crafted. Many independent hotels are facing severe operational challenges because of the current labor crunch. Now more than ever, StayNTouch is committed to providing our customers with best-in-class PMS technology that empowers owners and their staff to deliver unburdened hospitality."
